It is a great privilege to invite you to exhibit at the 25th World Congress of ISAPS from September 11 to 13, 2021, in Vienna, Austria – a cultural hub combining the best of Europe’s nostalgic charm with the trendy scene of an urban center.

ISAPS has invited the most distinguished international experts in plastic surgery to share the latest updates in the aesthetic surgery field over the three-day event.

The trade exhibition, and your participation in workshops and symposia, are excellent opportunities to network and interact with key leaders in the field of aesthetic surgery, to promote your brand and to give your company significant exposure to a live and virtual audience, and to successfully advertise your products and services.

The 25th ISAPS World Congress offers several enticing reasons to exhibit:

- You will meet qualified attendees and decision-makers
- You will meet surgeons with a different focus
- You will acquire the best-qualified sales leads and create long-term relationships
- You will procure a high turnover in a short time period by promoting your products or services on-site

This exhibitor manual contains all opportunities for exhibiting, sponsoring, and advertising as well as practical details.

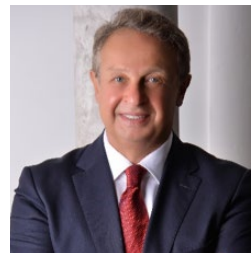

ISAPS would not be able to run such a successful Congress without the support of our industry partners and exhibitors and we look forward to welcoming you in Vienna.

As the Congress approaches, you may find updated information on the Congress website at www.isapsvienna2021.com

We look forward to welcoming our international guests to Vienna, and hope you will join us at the 25th ISAPS World Congress – and gain an international clientele for your products and services.

BOOTH ASSIGNMENTS

Please indicate any competitors we should avoid placing near you. Booth assignments will be made on a first-come, first-served basis. Space preference will be given to ISAPS Global Sponsors and companies with previous ISAPS history. Our exhibit coordinators reserve the right to change the floor plan and re-assign booths if necessary. All affected exhibitors will be notified of any changes.

EVALUATION OF SPACE APPLICATION FORMS

In order to preserve and maximize the educational value of the technical exhibit program, the organizers will examine all space applications and evaluate the proposed exhibits to determine whether they satisfy certain basic criteria. Permission to exhibit does not constitute in any way an ISAPS World Congress endorsement or approval of the exhibited products or services.

The World Congress Organizing Committee and/or the Board of Directors will examine and evaluate all space applications. In order to make these determinations, a list of the products or services proposed for the exhibition and adequate supporting data regarding the products or services must be provided on request. ISAPS reserves the right to accept or refuse any space sale, if the company's participation is contrary to its interests and/or the congress' interests.

APPLICATION PROCEDURE

- To apply for an exhibit space, complete the Application Form and return it with the required deposit. In

order to be considered for the first assignment of exhibit space, **Application Forms must be received before July 30, 2021. Due to Covid19 we prepare a plan on the respective regulations by the Austrian authorities. We will create a plan as soon as possible after receiving all applications.** Space will not be assigned without a signed Application Form and the required deposit. Applications received after that date will be assigned on a first-come, first-served basis following the completion of the initial space assignments.

- No requests for exhibit space will be accepted via telephone without a confirmation by mail, email or fax.
- No application form will be accepted without the required payment.
- All space assignments are subject to continued compliance with the products or services proposed for exhibition and the basic criteria established for technical exhibits. If at any time a product or service for which a space application has been accepted fails to conform to the basic criteria, the ISAPS World Congress may revoke its acceptance of the application and all exhibit space rental fees paid to date by the applicant may be refunded in accordance with the refund policy, and the ISAPS World Congress shall have no further liability to the applicant with respect to the proposed exhibition.
- Applications from companies that have outstanding balances owed to the ISAPS World Congress, its contractors, or vendors will not be processed without full payment of delinquent accounts.

EXHIBIT INFORMATION

ASSIGNMENT PROCEDURE

As space may not be available to accommodate all qualified applicants, ISAPS may have to select among qualified applicants in granting permission to exhibit. Global Sponsors will have first priority and congress sponsors will have second priority in this assignment process. In so doing, and also in determining priority for assignment of specific exhibit locations to accepted applicants, ISAPS will generally assign space based on a priority system if the space agreement is received by July 30, 2021.

The priority system is determined by:

- Past participation at meetings organized by ISAPS
- The applicant's contributions to the ISAPS World Congress 2021
- The date of receipt of the Application Form, with the appropriate deposit (first-come, first-served basis)
- The total financial contributions applicant's to ISAPS events
- If exhibit space for the ISAPS World Congress 2021 is sold out, companies will automatically be placed on a waiting list. As long as space is available, ISAPS will continue to make space assignments. All space assignments are subject to the cancellation policy deadlines, regardless of the date space was assigned.
